Dear sir ,thank you for your letter regarding the application for a dwelling opposite our property we do feel very strongly about the planning application for two reasons
1 Because the views that we enjoy would be very much obstructed by a building and this would significantly devalue our property
2. When we made our application for this property we were assured that we would be the very last house to get planning permission at this end of the village .
please give this your utmost consideration your sincerely
S.Prior
